Experience

UI UX Designer | Gritstone Technologies

August 2024 - Present / Kozhikkode, Kerala (Full time)

- Conducted user research using diverse methods to identify user challenges, objectives, and requirements in the products
- The research helped create solutions that satisfied both users and business goals.
- Led the design process and collaborated with different teams to ensure seamless development and user experiences of the products
- Delivered innovative solutions that boosted client satisfaction and business success.

UI UX Designer | Fegno Technologies

September 2023 - June 2024 / Kochi, Kerala (Full time)

- Conducted user research through various methods to understand user pain points, goals, and needs.
- Research helped to develop innovative solutions that met both user needs and business goals.
- Led the design process, working closely with various teams to ensure smooth development and user journeys.
- Delivered cutting-edge solutions that drove client satisfaction and business growth.

UI UX Designer | Freelance

June 2022 - August 2023 (Part Time)

- Understand the target user groups and conduct user research in different methods to understand their needs and pain points.
- Creates low-fidelity wireframes to visualize the design and user interactions.
- Tests usability with users to identify issues, which helps prevent the need for further revisions and improvements.
- Transforms wireframes into polished, visually appealing UI designs.
